Pallet RACK BACK™

Add SAFETY and SECURITY

*It's simple with our modular
RACK BACK™ woven wire systems!*

■ SAFELY CONTAIN AND PROTECT!

Just don't "catch the spill" — prevent it! Our RACK BACK™ panels bolt directly to your existing pallet rack uprights creating a sturdy barrier between inventory…and the ground below. Our durable, all-welded angle-frame design adds all the protection you need to prevent dangerous spills — protecting employees while containing inventory.

■ SECURE YOUR INVENTORY.

Add end panels and locking gates to your RACK BACK™ panels to create a complete pallet enclosure…designed to control access and prevent inventory theft.

■ EVERY SIZE YOU NEED …READY TO SHIP!

RACK BACK™ modular panels are stocked in 4- or 5-foot heights with widths available to match any beam length. Plus, all stock items are ready-to-ship within 48-hours of your order!

■ ATTRACTIVE AND EASY TO INSTALL

Installs simple and fast — providing several mounting options to fit your specific needs. And our clean, straight-line design makes for a very attractive warehouse area.

**ABOVE, RACK BACK™ MOUNTS FLUSH-TO-FLOOR.
BELOW, RACK BACK™ MOUNTS ABOVE FLOOR LEVEL.**

RACK BACK™

"BACK ANY RACK" WITH WIRECRAFTERS MODULAR PANEL SYSTEM – OUR PANELS ARE:

- Constructed from 2" x 1" 10-gauge woven wire mesh, welded into a 1-1/4" x 1-1/4" x 1/8" angle frame.
- Stocked in 1-foot increments up to 10-feet wide. Wider panels available.
- Stocked in 4- or 5-foot heights and stackable to any height.
- Available with "above the top" extensions to safely contain stored items above the rack structure.

Pallet RACK BACK™

"BACK ANY RACK" WITH WIRECRAFTERS MODULAR PANEL SYSTEM.
Sturdy framed panels provide hassle-free installation by bolting directly to rack uprights with our right angle mounting brackets. Panels may be easily extended above the rack with our "above-the-top" extension supports.

■ Panel Mounting Options

■ RACK BACK™ Options

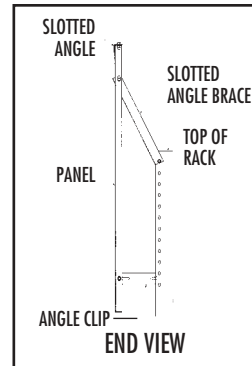

FLUSH MOUNTED*
RACK BACKS™
In the above photo, the RACK BACK™ is flush mounted directly to the pallet rack uprights.

OFF-SET MOUNTED*
RACK BACK™
Panels mount to the pallet rack upright with an off-set bracket. Off-set brackets from 0"-12" available. Specify desired overhang when ordering.

"ABOVE THE TOP" EXTENSION
Contain loads stored on the top beam. Angle supports extend above the rack, anchoring the RACK BACK™ panel securely in place.

RACK ENCLOSURES
Completely surround your pallet rack with:
- Left and Right End Panels
- Top/Ceiling Panels
- Sliding or Hinged Gates for the front

*NOTE: Four brackets per panel are required for installation.

Popular RACK BACK™ Panel Sizes

Panels stocked in 1' wide increments.

Custom sizes available — Call for details.

Four brackets per panel are required for installation.

- Mounts directly to pallet racks...fast and easy.
- Available in various widths and heights to accommodate any pallet rack configuration.
- Adds safety and security to your pallet rack system.
- Stock items ship within 48-hours of your order.
- Fast quotation service.
- Nationwide network of dealers and factory-owned warehouses.
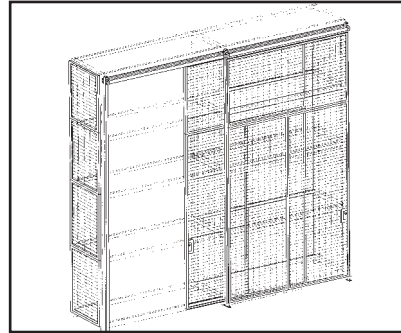

Pallet Rack Gates

COMPLETELY ENCLOSE YOUR PALLET RACK SYSTEM AND SECURE INVENTORY!

It's so simple to add extra security to your pallet rack system with WireCrafters hinged and sliding gates. Control access and prevent inventory theft with our pallet rack enclosures.

CUSTOM DESIGNED GATES.

Due to the wide-array of sizes available, our in-stock sliding and hinged gates work for nearly every pallet rack application. When your project calls for a special size, we offer custom design and manufacturing.

PALLET RACK SLIDING GATES
- Ideally suited for mutli-bay application
- Our unique "double track" system keeps doors out of your way, and aisles clear of obstruction
- Full height doors available up to 20-feet tall
- Locking options available for added security.
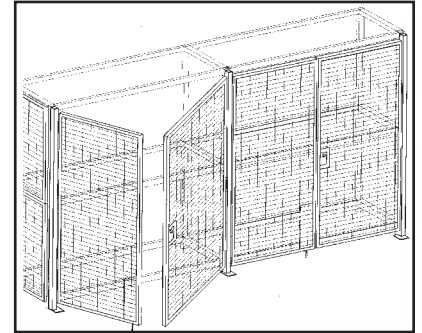

PALLET RACK DOUBLE HINGED GATES
- Ideally suited for single bay applications
- Mount directly to the rack uprights
- Full height doors available up to 20-feet tall
- Locking options available for added security.
